No "spike protein" has been proven just as no "virus" has been proven. "DNA" has never been proven either. Read the original paper making that claim and you will see no evidence for it. That means that all stories based on that claim are also unproven. Much of what people believe about biology and health are unproven assumptions upon assumptions

Under true Common Law and the rest would be tried and sentenced accordingly and hanged but they all are agents for the corporation and no one has immunity so again the human race are seeing the criminal enterprise give a show

Data Centres actually will/could deliver the air born waste as they are putting strontium in the water and more. with 5000 in the States now. Also Canada will build more as with many many other countries worldwide. that is why to stop these data centres must be shut down. The physics numbers prove harms you never thought of yet. I have the links.

You almost have it all correct on the plan and DJT signed the OWS and more that opened the door for this world wide. So with Dr. David Marten and the evidence Sasha Latypova has on the Military OWS and the video I just sent prior will be the icing on the cake of how this is real. Only one thing to know for sure is that Source God is ahead of the these

I wouldn't blame Trump! We all have choices - listen to God not man. Follow God Not man! You maybe bright - but I don't think you really know what's going on. You are right regarding famine for several months, but before the months there will be a couple weeks then we are to prepare for the months duration.
